

# Proposal for the Salobreña Town Council

## Community and School Project Against Litter

### Proposal Summary

We would like to propose a collaborative project between our social club, El Club Internacional de Salobreña, the schools of Salobreña, and the Town Council to help reduce the litter problem in our town and promote environmental responsibility among young people.

The project would include:

- Educational talks in schools for students aged 12 to 15
- Discussions about the environmental and social impacts of litter
- Encouraging students to feel proud of their town and beaches
- Inviting students to participate in supervised community clean-up days
- Providing materials and safety equipment

The goal is to create long-term awareness, improve the image of the municipality, and encourage positive participation in the community.

### Objectives

- 1 Educate students about the dangers and consequences of littering
- 2 Promote civic awareness and environmental responsibility
- 3 Create opportunities for community participation for young people
- 4 Improve the cleanliness of beaches, parks, streets, and public spaces
- 5 Strengthen relationships between residents, schools, and the Town Council

### Proposed Activities

#### School Visits

Members of El Club Internacional de Salobreña will visit local schools to give short and engaging presentations about:

- Plastic pollution
- The effects of litter on animals and the sea
- Health and safety concerns
- Tourism and the image of Salobreña
- Personal responsibility and teamwork

#### Community Clean-Up Days

Students will be invited to participate in supervised clean-up activities in different areas of the municipality.

All participants will receive:

- Litter pickers
- Protective gloves
- Reflective vests
- Trash bags

## Proposed Budget (30 Students)

| Item                               | Quantity | Estimated Cost per Unit | Total |
|------------------------------------|----------|-------------------------|-------|
| Litter pickers                     | 30       | €4                      | €120  |
| Protective gloves                  | 30 pairs | €1                      | €30   |
| Reflective vests                   | 30       | €4                      | €120  |
| Trash bags                         | 300 bags | €0.10                   | €30   |
| First aid kit                      | 1        | €25                     | €25   |
| Educational materials and printing | —        | —                       | €25   |
| Water and snacks for volunteers    | —        | —                       | €25   |

**Estimated Total Budget: €375**

### Request to the Town Council

We respectfully request the support of the Town Council through:

- Financial assistance for materials and equipment
- Collaboration with local schools
- Permissions to organize clean-up days
- Waste collection services after the events
- Promotion of the project within the community

We believe that this initiative will have a positive impact on both the environment and the community spirit of Salobreña.

Thank you very much for your consideration.
